

SECURITY SHUTTERS

The perfect fusion of style and safety, our **V-Lite aluminium security shutters** offer complete peace of mind without compromising aesthetics.

Constructed with durable materials to provide a robust defence for your windows and doors, they add an extra layer of protection to your property, whether you are home or away.

Enjoy the added flexibility of adjustable louvres, allowing you to control light, privacy, and airflow with ease.

BENEFITS

These dual-function shutters will increase the value of your property while providing invaluable peace of mind.

They are easy to maintain, requiring merely an occasional wipe or dusting.

Shutters also act as a barrier against heat and cold, providing insulation that can help reduce energy consumption.

And in addition, they help to reduce external noise, creating a quieter and more peaceful indoor environment.

SPECS

- Available in Matt White and Matt Stone Grey as standard, but can be powder coated to match any colour
- Market-leading light reduction built into the design of the shutter profile
- Single twist lock secures 8mm s/steel locking bolts 35mm deep into both top and bottom tracks
- Further security can be added by throwing the bolt through the tracks into the floor or lintels
- Optional integrated louvre lock
- Hidden 'tilt rod' in the form of rack and pinion system to operate the louvres
- All components are aluminium, stainless steel or nylon for durability and longevity

CLEANING

Aluminium security shutters are smooth and, therefore, relatively easy to clean.

Use a soft, clean dust cloth, vacuum cleaner brush, feather duster, or other gentle cleaning aid for dusting. Clean from side to side, following the direction of the slats.
