

ALUMINIUM VENETIAN BLINDS

Lightweight, easy to operate and durable, it's no surprise that Aluminium Venetian Blinds are our most popular product.

Enjoy their sleek and contemporary appearance in a wide range of colours and finishes ensuring seamless integration with your decor.

Designed for highly effective light control, and available in 25mm and 50mm slats, they provide versatile options for home and office applications.

Upgrade your space with this elegant and practical solution.

BENEFITS

Aluminium Venetian blinds have numerous benefits that put them at the forefront of our offerings. They provide precise control over the flow of sunlight into your space, helping to protect your furniture and appliances against harsh UV rays while still allowing for the free flow of fresh air.

They are lightweight, easy to handle and can stack higher due to the thin slats, making them easy to install into large windows and doorways.

Aluminium Venetians are also well-suited to damp areas, making them ideal for kitchens and bathrooms.

- Wire side guides are available to secure the blind when installed onto doors or on slopes
- Hold-down brackets can be added at an additional charge
- Only the 50mm blinds can be motorised

somfy.

CLEANING

Smooth slats make aluminium blinds relatively easy to clean.

Use a soft, clean dust cloth, vacuum cleaner brush, feather duster or other gentle cleaning aids for dusting.

Tilt the slats up (but not entirely closed) and clean from side to side, following the direction of the slats, with a cloth or vacuum brush.

Tilt the slats down and repeat the cleaning process.
