

WOODEN VENETIAN BLINDS

Crafted from the finest solid timber, our wooden Venetian blinds will add a sophisticated, natural touch to your home.

Their unique grain patterns and premium quality bring a captivating allure to any space.

With various shades available, there are options to complement both classic and contemporary decor styles.

Discover natural warmth and timeless elegance with these versatile, durable, and sustainable window coverings.

BENEFITS

Wooden Venetian blinds offer numerous benefits to complement their effortless style.

Fully adjustable slats provide precise control over light and privacy, allowing you to create your ideal ambience.

They are customisable to fit any window size or shape, ensuring a perfect fit and a seamless look.

Durable and built to last, they offer a long-term window-covering solution which can be motorised for ultimate convenience.

The wooden slats also provide insulation, which helps to regulate indoor temperatures and reduce dependence on costly heating and cooling.

SPECS

- Available in 50mm solid timber slats
- Supplied with colour co-ordinated strings, accessories and matching pelmet for a neat finish
- Natural variations in colour, grain & texture to be expected
- Our blinds meet international standards in UV stabilisation and colour fastness
- Slight light penetration does occur between slats even when closed
- These blinds can be motorised **somfy**

CLEANING

Smooth slats make wooden blinds relatively easy to clean.

As with any wood product, excess moisture can warp or discolour the wood, even if sealed, so avoid using excessively wet cloths or spraying directly with detergents.

Use a soft, clean cloth, feather duster, vacuum brush or other gentle cleaning aid for dusting.

Tilt the slats up (but not entirely closed) and clean from side to side, following the direction of the slats. Tilt the slats down and repeat the process.
