

SECURITY GATES

Add a robust layer of defence to your property with security gates engineered to protect against intruders. Developed using premium quality materials, our gates provide a durable and reliable solution to your residential or commercial security needs.

Available in two strength options, our expert team will provide trusted advice on the best solution for your specific requirements. Our experienced and professional installers will ensure your security trellis functions flawlessly and integrates seamlessly with your property.

BENEFITS

- Custom manufactured
- Fully rust-resistant security grade aluminium
- New-generation trellis functionality
- Stainless steel security fasteners for tamper-proof fastening.
- Design allows for easy wiping and cleaning and leaves no space for dust accumulation
- Anti-stick bottom and top aluminium rails guide the gate and ensure smooth slam lock functionality
- Smooth and silent action
- Superior double locking
- An adjustable wireless vibration sensor alarm is built into the gate at various locations to eliminate false alarms.
- It can be added to your existing alarm system
- An optional mobile siren can extend the functionality of the sensor alarm

COLOURS

We offer a wide range of standard colours and we can also match any colour should our standard colours not be suitable.

MATT BLACK

CHARCOAL

BRONZE

MATT SILVER

STONE GREY

ASH GREY

CREAM

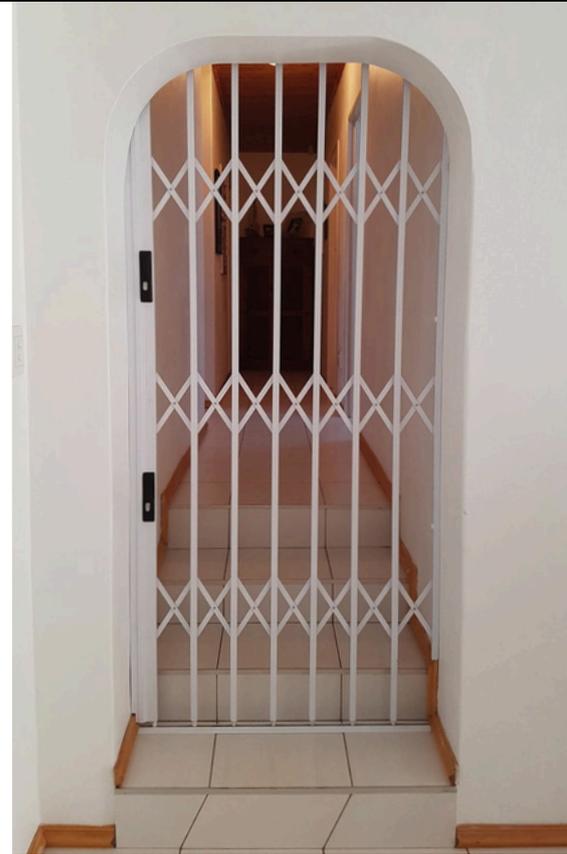

MATT WHITE

GLOSS WHITE

All products are finished in a state-of-the-art powder coating plant, so the colours on this brochure might differentiate from the actual product colour.

WARRANTY

Correct maintenance will ensure your gate stays in a working condition. Ask your Consultant about our recommended maintenance procedures to ensure the validity of the full warranty.

As a responsible manufacturer, we endeavour to design, engineer, test and install our products to give our customers the best possible security barriers technology allows. However, please remember that given enough time and the right tools, all security barriers can be breached, no matter how well they are constructed.
