GEARBOX DROP WITH SEMI CASSETTE

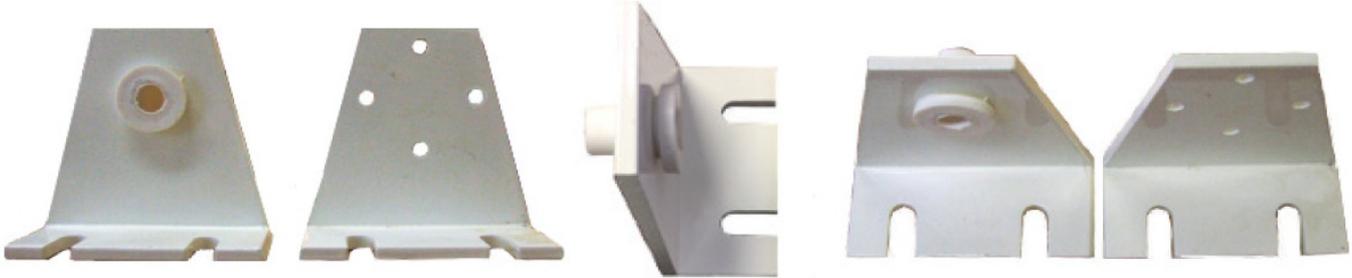

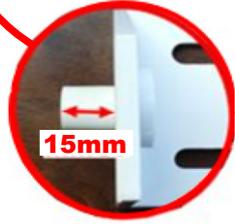

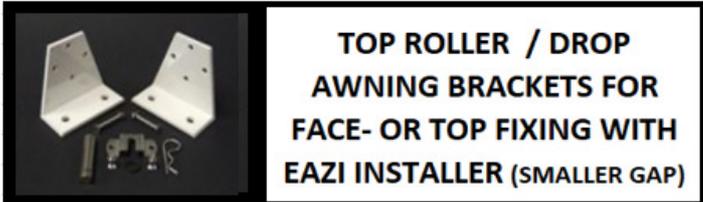

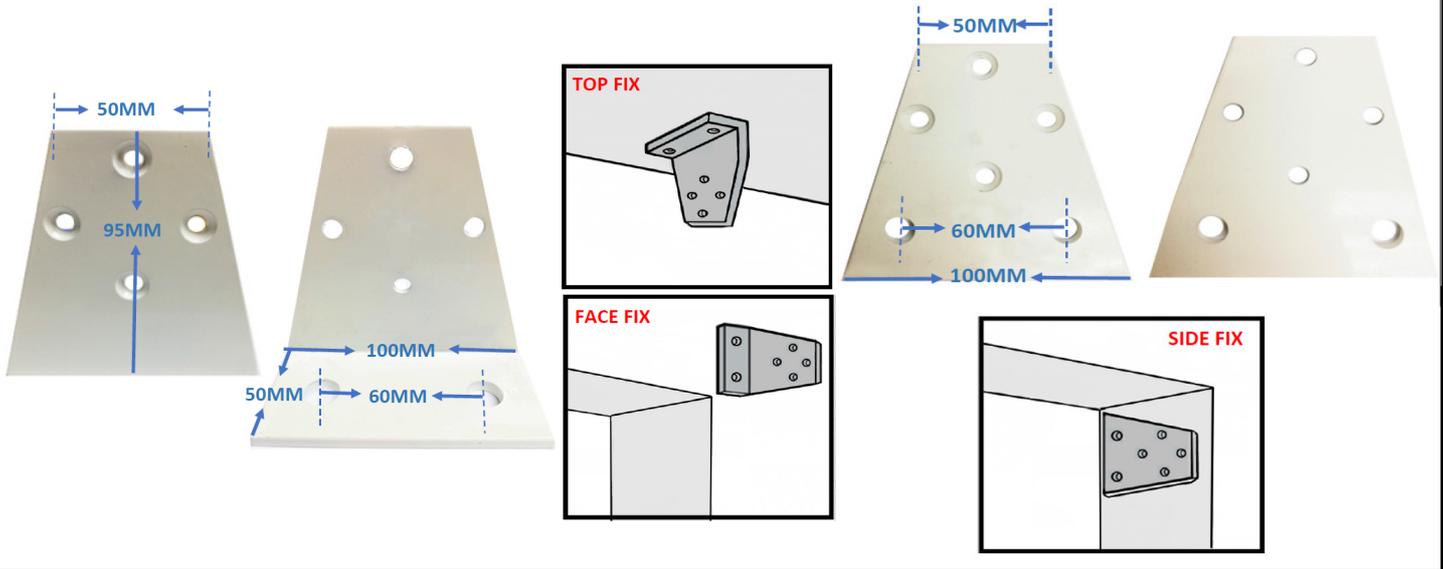

145mm

105mm

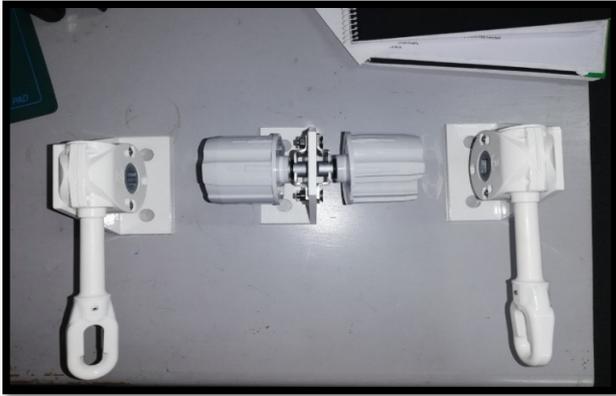

SPECIFICATIONS

- Maximum sizes; 5880 width x 3000 high
- Hardware available in RAL9010 White, ANP9085 Bronze & ANP Matt Charcoal
- Roller Tube — Galvanised steel
- Can be installed FACE FIX, TOP FIX OR SIDE FIX
- Stainless steel Eazi Install brackets available to reduce light gap along the side
- Bottom bar can either be covered in fabric pocket or left visible
- Tie down sets provided

STANDARD BRACKETS WITHOUT EAZI INSTALL

- When 2 drops are going to be installed next to each other, over one opening, the light gap down the centre can be reduced by creating a centre spindle off sorts. Only one bracket is used, as apposed to two, but with two Eazi Installer brackets back to back on either side.
