

VERTICAL BLINDS

An elegant statement blind ideal for home or office environments, vertical blinds work particularly well on large windows & sliding doors.

With a wide selection of fabrics, colours, and patterns, you will easily find the perfect match for your interior design in blockout and translucent materials.

Practical and easy to operate, vertical blinds stack tidily to the side, causing minimal obstruction to your view and maximising your window size.

BENEFITS

Vertical blinds have multiple benefits that make them an ever-popular solution.

Their smooth, effortless operation allows for quick and easy adjustments.

They offer substantial glare reduction and UV control, ideal for office environments, and they help regulate room temperatures by blocking sunlight, leading to potential energy savings on cooling costs.

All our fabrics meet international standards of fade resistance and dimensional stability to ensure maximum longevity.

SPECS

- Vanes are available in 90mm and 127mm widths
- For additional privacy and sun protection, we can provide a more significant overlap between vanes
- Very reliable, tried-and-tested mechanism
- There are three ways to stack blades - left, right, or middle split (even stacks on each side)

CLEANING

Cleaning depends on the type of fabric ordered.

Most fabrics can be dusted regularly with a vacuum cleaner brush or a soft, clean cloth to avoid a build-up of dirt.

Some fabrics are washable. Wash in cold water, add a mild detergent and do not rub excessively.

Hang up to dry on the track with the blind in the open position and the bottom weights in their pockets.

To spot-clean marks or stains, use a mild detergent in warm water, then blot dry.

Avoid paint solvents, harsh cleaners and disinfectants, especially those containing quaternary ammonium compounds and phenols.
