

TIMBER SHUTTERS

Create a timeless and elegant home with our gorgeous timber shutters.

Their classic style reigns supreme, bolstered by their versatility in light and air control, as well as their tendency to uplift the value and design of your property.

Sturdy, substantial and durable, there is no better choice than timber shutters for a premium, more permanent window covering that stands the test of time.

BENEFITS

Our most luxurious product boasts equally impressive benefits.

Timber shutters can be tailored to fit various window shapes, including arches, triangles and bay windows, with full-length options available for doors and patio enclosures.

They are fully customisable in various finishes to match your decor.

Their insulating qualities help regulate indoor temperatures, reducing heating and cooling costs, and adjustable louvres offer precise control over natural light, airflow and privacy.

African Oak

CLEANING

Timber shutters are smooth and, therefore, relatively easy to clean.

Use a soft, clean dust cloth, vacuum cleaner brush, feather duster, or other gentle cleaning aid for dusting. Clean from side to side, following the direction of the slats.
