ABOUT US

We believe that our flyscreens, insect screens and secure screens are the most versatile and durable products of its kind in the country. It has been developed since 1999 and has fast become a favourite in homes, hospitals, farms and game lodges. Why?

THE PATENTED CORNERS

The patented corner system used in the Insect Screen and Secure Screen is an important part of the durability and versatility of the product. It is the only system of its kind.

THE MESH

The mesh is imported from the United States, specifically designed for high temperatures. For our Insect Screens, it's made from interwoven fibre glass and coated with PVC.

Our secure screens consist of black powdercoated SS316 Marine Grade Stainless Steel mesh.

This ensures that the finished product is strong and that it won't corrode with time and is suitable for all climates and weather.

The mosquito screens allows for its mesh to be replaced without compromising the product.

Our Insect Screens has been designed with a unique patented cornering system and profiles to improve insect screening solutions. We pride ourself in this Corner Star design as it has been proven to be the favourite in South African homes.

The mesh used on the Insect Screens is made from interwoven fibre glass and coated with PVC, ensuring a strong product that is weather resistant and protected from corrosion.

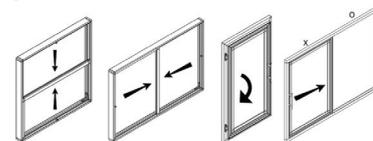

With our Insect Screens you can enjoy natural fresh air while keeping the pests out.

PROFILE SYSTEMS

Both Insect & Secure Screens Range have dedicated profile systems specifically designed to fit our product ranges

WINDOW SCREENS

- ✓ The Window Screens have been designed with a unique cornering system that is built with premium quality materials
- ✓ The design has no moving parts like a roll type screen and therefore minimal cleaning is required
- ✓ Made to fit any type of window system

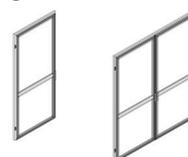

SLIDING DOOR SCREENS

- ✓ Our versatile range of sliding doors can be customized to cover any type of existing sliding door or patio
- ✓ Our black durable mesh is used on our Door Screens with PVC Coating and UV Protection
- ✓ Your views unobstructed with a seamless design
- ✓ Effortless Sliding System

HINGED DOOR SCREENS

- ✓ Customized accessories such as Cat & Dog Flaps or even Automatic door closers are optional
- ✓ A more durable mesh is used on our Door Screens with PVC Coating and UV Protection
- ✓ A stylish designed door screen popularly known as your kitchen or front door screen
- ✓ Weather strip, magnets and door handles included
- ✓ Manufactured to any size opening

Our Secure Screens is a security barrier that is an almost invisible security screen for windows and doors with superior quality materials being a cut above the industry.

Our Security Screens are becoming a popular solution in various industries such as private homes, game lodges and residential estates to name a few.

Our Secure Screens is a security barrier that is aesthetically pleasing but remains a tough and reliable security option for your home.

Our secure screens consist of black powdercoated SS316 Marine Grade Stainless Steel mesh.
